

# Thank The Heroes

Right now, many people are helping keep us safe and healthy. **Doctors, nurses and other health care staff** are the Health Heroes making people feel better. **Essential workers**, such as mail carriers, grocery store clerks, electricians and more, are making sure we have what we need. And, **Ford team members** are building personal protection equipment instead of cars!

You can help them by making them thank you cards to show that you appreciate everything they're doing!

You can make your own or use one of our templates.

Be creative and ask your parent or guardian to **share a photo of your cards on social media using hashtags #keeplearning, #stayhome and #Fordemployees** (if they work for Ford) so that more people see it and get excited to help out by making their own Thank Yous. We'll ship the Thank Yous in boxes with PPE and display them at Ford plants so those team members can see our appreciation every day!

# THANK YOU ESSENTIAL WORKERS

Lots of people are working right now to keep us safe, healthy and supported.  
What essential workers do you want to thank?  
Add details and color in the figures below to represent them.

#keeplearning

# THANK YOU FORD HEROES!

Thank you for making masks, face shields, ventilators and gowns. You are helping to keep us, our families and the entire world safe and healthy. We appreciate you!
