2021

**Integrated Sustainability and Financial Report 2021**

Ford Motor Company | [sustainability.ford.com](https://sustainability.ford.com) | [shareholder.ford.com](https://shareholder.ford.com)

## Our Sustainability Aspirations

We are working to revolutionize mobility, fueled by new challenges and the desire to help build a better world for everyone.

### Climate Change

Achieve carbon neutrality by 2050

### Air

Attain zero emissions from our vehicles and facilities

### Energy

Use 100 percent local, renewable electricity in all manufacturing by 2035

### Waste

Reach true zero waste to landfill across our operations

Eliminate single-use plastics from our operations by 2030

### Water

Make zero water withdrawals for manufacturing processes

Use freshwater only for human consumption

### Materials

Utilize only recycled or renewable content in vehicle plastics

### Safety

Work toward a future that is free from vehicle crashes and workplace injuries

### Human Rights

Source only raw materials that are responsibly produced

### Diversity, Equity and Inclusion

Create a truly diverse culture where everyone feels like they belong

### Access

Drive human progress by providing mobility and accessibility for all

# UNGC Index

This Sustainability Report serves as Ford’s annual United Nations Global Compact (UNGC) “Communication on Progress,” as it includes discussion of Ford’s implementation of the Ten Principles of the UNGC and support for the broader UN Sustainable Development Goals.

Please see the index below for information on where each UNGC principle is covered in this report.

<b>Environment</b>	
<p>7. Businesses should support a precautionary approach to environmental challenges.</p>	<p>The precautionary principle is the idea that if the consequences of an action are unknown but are judged to have some potential for major or irreversible negative consequences, then it is better to avoid that action. We do not formally apply the precautionary principle to decision-making across all of our activities. However, it has influenced our thinking. For example, in addressing climate change as a business issue, we have employed this principle. In addition, we assess and manage environmental, safety, supply chain, operational and other risks as described throughout this report.</p> <p><a href="#">Integrated Sustainability and Financial Report 2021</a> &gt; Our Sustainability Strategy, page 10</p> <p><a href="#">Integrated Sustainability and Financial Report 2021</a> &gt; Our Sustainability Aspirations, page 11</p> <p><a href="#">Integrated Sustainability and Financial Report 2021</a> &gt; Environment Overview, page 40</p> <p><a href="#">Integrated Sustainability and Financial Report 2021</a> &gt; Climate Change: Toward Carbon Neutrality, pages 41-43</p> <p><a href="#">Integrated Sustainability and Financial Report 2021</a> &gt; Sustainable Operations, page 50</p> <p><a href="#">Integrated Sustainability and Financial Report 2021</a> &gt; Energy and Emissions, pages 50-53</p> <p><a href="#">Integrated Sustainability and Financial Report 2021</a> &gt; Minimizing Our Supply Chain Impacts, pages 55-56</p> <p><a href="#">Integrated Sustainability and Financial Report 2021</a> &gt; Respecting Human Rights, page 66</p> <p><a href="#">We Are Committed to Protecting Human Rights and the Environment Policy</a></p> <p><a href="#">Supplier Code of Conduct</a></p>
